MEMORANDUM FOR: Chief, ED/BGI

SUBJECT: Processing of NIS 39A General Survey

1. In spite of the lack of the final product on which to base judgment, I would like to call your attention to a fine effort by ED/PS personnel in their processing of manuscript and graphics for the NIS 39A General Survey.

2. Although partially available somewhat earlier, the full text was not released to ED/PS until 27 October. It was delivered to PSD one week later. Graphic design and production had been completed earlier and included rapid response to several last minute requests. Final graphic processing was carried out by [REDACTED] with assistance from [REDACTED]. Manuscript processing was accomplished in a cooperative effort by all members of the EPIC Support Staff:

[REDACTED] These young ladies did an exceptionally fine job in a very short time and made a significant number of improvements in format.

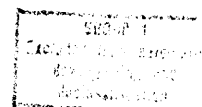

3. If ED/BGI efforts on this publication are recognized, I hope the above listed personnel will not be forgotten.

[REDACTED]
Chief, ED/PS/BGI
